Always Causing Legal Unrest - Standalone Political Graphic

This small satirical membership card belongs to Nikki Craft's Always Causing Legal Unrest project. It turns the familiar language of institutional membership into a portable feminist political object. The card uses the counter-acronym A.C.L.U. for Always Causing Legal Unrest and states its purpose in the line "Pushing The Limits Of Free Speech To Even The Score."

Relationship to the Always Causing Legal Unrest Collection

The card should be read with ACLU-00, the historical overview and document guide, and ACLU-02, the Pushing Buttons catalog. Together, those records show how Always Causing Legal Unrest moved through political art, parody, catalogs, buttons, cards, leaflets, correspondence, and direct action. The card also helps establish that the 1991 dispute with the American Civil Liberties Union was one chapter in a project that had already developed its own language and identity.

Dating and Source Note
